

## Note di Matematica

Volume 30, number 1, 2010

N. DIABATÉ, T.K. BONI: <i>Asymptotic behavior for a nonlocal diffusion problem with Neumann boundary conditions and a reaction term</i>	1
N.L. JOHNSON: <i>The non-existence of Desarguesian <math>t</math>-parallelisms, <math>t</math> an odd prime</i>	13
P. CHEN, R.G. ANTONINI, TIEN-CHUNG HU, A. VOLODIN: <i>Limiting behaviour of moving average processes under <math>\rho</math>-mixing assumption</i>	17
P.I. KOGUT, R. MANZO, I.V. NECHAY: <i>On existence of efficient solutions to vector optimization problems in Banach spaces</i>	25
A.I. TELLONI: <i>A note on some homology spheres which are 2-fold coverings of inequivalent knots</i>	41
S. TAHILIANI: <i>On <math>\Pi\mathfrak{g}\beta</math>-closed sets in topological spaces</i>	49
V. BEN DHAGAT: <i>Common Fixed Point Theorems in Uniform Spaces</i>	57
A.K. KATSARAS: <i><math>P</math>-adic Measures and <math>P</math>-adic Spaces of Continuous Functions</i>	61
M. AGRAWAL: <i><math>C</math>-<math>\alpha</math>-Compact Spaces</i>	87
A. BERGMANN: <i>Constructive definition of central collineations in projective Desargues planes</i>	93
H. MARTINI, S. WU: <i>On angular bisectors in normed linear spaces</i>	109
A. A. SALIMOV, M. ISCAN: <i>On Norden-Walker 4-manifolds</i>	111
R. BÖDI, T. GRUNDHÖFER, K. HERR: <i>Symmetries of linear programs</i>	129
A. WITNO: <i>Primes modulo which almost all Fermat numbers are primitive roots</i>	133
A. OTTAZZI, B. WARHURST: <i>Rigidity of Iwasawa nilpotent Lie groups via Tanaka's theory</i>	141
