

Note di Matematica

Volume 39, number 1, 2019

H. URAKAWA: <i>Harmonic maps and biharmonic Riemannian submersions</i>	1
M. IMANFAR, A. POURABBAS: <i>A Conditional Expectation on the Tensor Product of Exel-Laca algebras</i>	25
E. AZIZPOUR, D.M. ATAYI: <i>Adjoint symmetries for graded vector fields</i>	33
M. OKAZAKI: <i>A Bogomolov type property relative to a normalized height on $M_n(\mathbb{Q})$</i>	59
H.M. SRIVASTAVA, G. YASMIN, A. MUHYI: <i>Lie algebra representations and 2-index 4-variable 1-parameter Hermite polynomials</i>	65
S. DI VIRGILIO: <i>Completely positive matrices of order 5 with a nearly \widehat{CP}-graph</i>	89
İ. EGE: <i>On Defining the (p, q, k)-Generalized Gamma Function</i>	107
