

# Note di Matematica

Volume 39, number 2, 2019

A.R. LEGGAT, S.E-H. MIRI: <i>Existence and multiplicity results for a doubly anisotropic problem with sign-changing nonlinearitys</i>	1
S. IZUMIYA, N. TAKEUCHI: <i>Evolutoids and pedaloids of plane curvess</i>	13
B. AKBARI: <i>Hall Graph of a Finite Group</i>	25
I. HOXHA AND N.L. BRAHA: <i>On <math>(n, k)</math>-quasi class <math>Q</math> Operators</i>	39
S.O. SHAH, A. ZADA: <i>The Ulam stability of non-linear Volterra integro-dynamic equations on time scales</i>	57
M. BARATI, F. SAEEDI: <i>Derivations of abelian Lie algebra extensions</i>	71
P. KUMAR: <i>Normal subgroups of finite non-abelian metacyclic <math>p</math>-groups of class two of odd order</i>	87
H. URAKAWA: <i>Biharmonic Hermitian vector bundles over compact Kähler manifolds and compact Einstein Riemannian manifolds</i>	95
E. SAVAS, S. DEBNATH: <i>Lacunary Statistically <math>\phi</math>- Convergence</i>	111
