

General Index

PROGRAM	9
ABSTRACT BOOK	19
INVITED LECTURE	21
A focus on Italy to disentangle the earliest migration of <i>Homo sapiens</i> in Southern Europe	22
by Benazzi S.	
PRESENTATIONS	25
Climate variability in the Monte San Nicola type-section (Sicily): high-resolution calcareous plankton fluctuations over the Pliocene-Pleistocene transition	26
by Addante M. , Girone A., Maiorano P., Marino M., Scopelliti G., Trotta S. & Caruso A.	
The high dinosaur biodiversity in the Apulia carbonate platform: evidence from the Lama Balice tracksite (upper Albian, Southern Italy)	27
by Antonelli M. , Petti F.M., De Sario F., Sacco E., La Perna R., Marino M., Marsico A., Petruzzelli M., Sabato L., Spalluto L. & Tropeano M.	
Coccolith input into the reconstruction of sea surface dynamic: Iberian margin and North Atlantic Ocean	28
by Argenio C. , Flores J.A., Fuertes M.A., Balestra B., Cerulo L., Cachão M. & Amore F.O.	
Reappraisal of the upper Olduvai Beds (Tanzania): insights from a new faunal assemblage from Geolocality 83	29
by Azzarà B. , Cherin M., Boschian G., Iurino D.A., Menconero S., Bona F., Cirilli O., Kimambo J.S., Masao F.T., Barili A., Ambrose S.H. & Manzi G.	
Old World Early Pleistocene Canidae record: a biogeographic perspective	30
by Bartolini Lucenti S.	
DISSCO RI: towards a European infrastructure for scientific collections	31
by Bellucci L. , Bartolozzi L., Biaggini M., Cecchi L., Di Vincenzo F., Innocenti G., Manca R., Mancinelli M.L., Moggi Cecchi V., Porena M., Presutti V., Rossi P.F., Rossi De Gasperis S., Veninata C. & Benvenuti M.	
Middle Triassic: the onset of modern terrestrial tetrapod faunas	32
by Bindellini G. , Benton M.J., Petti F.M., Bernardi M., Rubidge B., Hancox J. & Romano M.	
Neogene cold-seep microbial carbonates (Crotone basin - South Italy)	33
by Borrelli M. , Perri E., Heimhofer U., Santagati P. & Le Pera E.	
Eocene stilt walkers: unique rotatory growth strategy of the scleractinian coral <i>Stylocoenia</i>	34
by Bosellini F.R. & Stolarski J.	

Cuticles: a world waiting to be discovered	35
<i>by</i> Branz R. & Kustatscher E.	
The Rhamphosidae (Teleostei, Syngnathiformes) from the Eocene of Bolca	36
<i>by</i> Calzoni P. , Amalfitano J., Marramà G., Carnevale G. & Giusberti L.	
The dawn of moorish idols (Teleostei, Zanclidae) in the Eocene of Bolca	37
<i>by</i> Carnevale G. & Tyler J.C.	
Are the Mississippian mud-dominated carbonate buildups of Derbyshire “mud mounds”?	38
<i>by</i> Carniti A.P. , Della Porta G. & Angiolini L.	
Risposta delle associazioni a foraminiferi alle oscillazioni climatiche durante il Gelasiano-Calabriano: dati ottenuti dalla successione di Capo Rossello (Sicilia)	39
<i>by</i> Caruso A. , Cosentino C., Scopelliti G. & Herbert T.	
Tempo e modo nell’evoluzione della nicchia climatica in Dinosauria (Sauropsida: Archosauria)	40
<i>by</i> Chiarenza A.A. , Farnsworth A.J., Jones L.A., Cantalapiedra J.L., Gamboa S., Galvan S., Sotelo G. & Varela S.	
Cenozoic carbonate facies of Asia: the hidden potential of the shallow water record	41
<i>by</i> Coletti G. , Commissario L., Mariani L., Bosio G., Desbiolles F., Soldi M. & Bialik O.M.	
Mollusc shells as a tool to reconstruct the palaeoenvironment and the palaeoclimate in the HAS1 settlement (Holocene, Oman)	42
<i>by</i> Crippa G. , Chiari A., Cremaschi M., Dapiaggi M., Lischi S. & Leng M.J.	
Double-phased biomineralization processes in marine invertebrates: the example of cirratulids (Polychaeta, Annelida) from southern Peru	43
<i>by</i> D’Amico F. , Guido A., Kočí T., DeVries T.J., Collareta A., Bosio G. & Sanfilippo R.	
Seasonal growth patterns of pectinids from the warm Mediterranean Pliocene	44
<i>by</i> Danise S. , Giachetti G., Baneschi I., Casalini M., Miniati F., Dominici S. & Boschi C.	
Morphometric analyses of the Pliocene oysters from Buttigliera d’Asti (Asti, NW Italy)	45
<i>by</i> De Bortoli L.	
New allodaposuchid remains from the Late Cretaceous of Catalonia (Spain): insights into dermal and postcranial skeletal anatomy	46
<i>by</i> Della Giustina F. & Vila B.	
DeepBryo: a web app for bryozoan AI-assisted morphometric characterization	47
<i>by</i> Di Martino E. & Porto A.	

The silicified molluscs of Pelsa-Vazzoler (eastern Dolomites, Italy) and the late Middle Triassic diversification of marine life	48
<i>by</i> Dominici S. , Danise S. & Tintori A.	
Assessing relevance and vulnerability of palaeontological sites: an analytical procedure	49
<i>by</i> Faggi A. , Bartolini Lucenti S. & Rook L.	
60 years of the Italian Paleontological Society through its journal	50
<i>by</i> Ferretti A. & Balini M.	
Reassessment of a putative peltopleurid fish from the Sinemurian (Lower Jurassic) of Osteno (Como, Italy): preliminary results	51
<i>by</i> Franceschi F. , Marramà G. & Carnevale G.	
The analysis of the frontal sinus in the genus <i>Eucyon</i> : evolutionary and ecological insights	52
<i>by</i> Frosali S. , Bartolini-Lucenti S., Madurell-Malapeira J., Costeur L. & Rook L.	
Microbial biomineralizations in tidally-influenced subterranean settings (Zinzulùsa Cave, Castro, Italy)	53
<i>by</i> Guido A. , Alifano P., Talà A., Calcagnile M. & Belmonte G.	
Bethlehem suids reconsidered: chronological and paleobiogeographic implications	54
<i>by</i> Iannucci A. , Souron A. & Rabinovich R.	
The first Kungurian fossil forest reveals wetland conifers to thrive in peri-Tethyan Pangea	55
<i>by</i> Kustatscher E. , Trümper S., Rößler R., Morelli C., Krainer K., Karbacher S., Vogel B., Antonelli M. & Sacco E.	
<i>Plioiverrops faventinus</i> , a small Messinian hyaenid from Italy: a revision	56
<i>by</i> Loddi C. , Bartolini Lucenti S., Madurell-Malapeira J. & Rook L.	
<i>Pachycrocuta</i> , an active hunter or a social scavenger? Insights from postcranial morphology	57
<i>by</i> Madurell-Malapeira J. , Bartolini Lucenti S., Prat-Vericat M., Costeur L. & Rook L.	
Coccolithophore variations in the subantarctic South Pacific along late Quaternary glacial-interglacial cycles	58
<i>by</i> Malinverno E. , Saavedra-Pellitero M., Colucci M. & IODP-383 Scientists	
Double-armoured herrings (Clupeomorpha: Ellimmichthyiformes) from the Lower Cretaceous of Pietraraja (Southern Italy)	59
<i>by</i> Marramà G. & Carnevale G.	
New paleontological results on the early Middle Pleistocene of Notarchirico (Venosa, Southern Italy)	60
<i>by</i> Mecozzi B. , Iannucci A., Sardella R., Carpentieri M., Pineda A., Rabinovich R. & Moncel M.H.	

It's time to eat: great white shark (<i>Carcharodon carcharias</i>) bite marks on balaenid (right whale) remains from the Pliocene of Tuscany (Central Italy)	61
<i>by</i> Merella M. , Collareta A., Casati S., Di Cencio A., Pieri A. & Bianucci G.	
Bivalve response to Plio-Pleistocene climate change in the Mediterranean Sea	62
<i>by</i> Mondanaro A. , Dominici S. & Danise S.	
Endocranial pneumatization of <i>Ursus spelaeus</i> and implications in the bite force	63
<i>by</i> Moscarella A. , Iurino D.A., Conti J., Bona F., Di Giancamillo M. & Sardella R.	
Synchrotron tomography provides novel insights into the dental anatomy of <i>Acynodon adriaticus</i> (Eusuchia, Hylaeochampsidae)	64
<i>by</i> Muscioni M. , Dreossi D. & Fanti F.	
Cambrian bipartite animals reveal a lost chapter in chordate history	65
<i>by</i> Mussini G. , Smith M.P., Rahman I.A., Murdock D.J.E., Vinther J., Harper D.A.T. & Dunn F.S.	
First Mediterranean record of the delphinidan genus <i>Kentriodon</i> from a new lower Miocene odontocete locality at Feltre (northeastern Italy)	66
<i>by</i> Nobile F. , Collareta A., Perenzin V., Fornaciari E., Giusberti L. & Bianucci G.	
Deconstructing the classical Late Miocene faunal assemblages of the Tusco-Sardinian paleobioprovince	67
<i>by</i> Pandolfi L. & Rook L.	
Middle Pleistocene to Holocene ostracod assemblages from the Corinth Gulf	68
<i>by</i> Parisi R. & Mazzini I.	
The outstanding <i>Dama</i> -like deer sample from Vallparadís Estació (Iberian Peninsula, Early Pleistocene)	69
<i>by</i> Parparousi E.M. , Madurell-Malapeira J., Sorbelli L., Breda M. & Cherin M.	
Microbially mediated Ca-carbonate precipitation in tufa fluvial system: an innovative approach to develop a new generation of sustainable bio-inspired materials	70
<i>by</i> Perri E. , Borrelli M. & Ponte M.	
<i>In-vivo</i> 3D reconstruction and first volumetric body mass estimate of the oldest Karoo pareiasaur <i>Bradysaurus baini</i>	71
<i>by</i> Romano M. , Van den Brandt M.J., Day M.O., Manucci F., Viglietti P.A. & Angielczyk K.D.	
Impossible fossils: can soft tissues fossilize in volcanoclastic settings?	72
<i>by</i> Rossi V. , Iurino D.A., Terranova E., Fornasiero M., Bernardi M., Sardella R. & Kustatscher E.	

Biogenic content of surface cores from deep-shelf bottoms close to the coralligenous off Marzamemi (SE Sicily, Ionian Sea): preliminary data	73
<i>by</i> Rosso A. , Sanfilippo R., Donato G., Sciuto F., D'Alpa F., Caccamo D., Minniti G., Bracchi V.A., Savini A., Malinverno E., Guido A., Bazzicalupo P., Negri M.P., Cipriani M., Leonardi R., Viola A. & Basso D.	
MAE: Museo Archeologico Ernico - A brand-new museum in Anagni is born	74
<i>by</i> Sardella R. , Conti J., Germani M., Iannucci A., Iurino D.A., Mecozzi B., Messina M.Y., Moscarella A., Pioggia M., Strani F. & Vona S.	
<i>Leptobos</i> and <i>Bison</i> limb proportions and body mass changes in response to environmental transitions during the Pleistocene	75
<i>by</i> Sorbelli L. , Madurell-Malapeira J., Brugal J.P., Kostopoulos D.S. & Cherin M.	
Rediscovering the fossil collection from the late Early Pleistocene site of Pirro Nord (Foggia, Southern Italy) at the Bari University	76
<i>by</i> Stefanelli D. , Mecozzi B., Breda M., Girone A., La Perna R., Maiorano P., Marino M. & Sardella R.	
Combining palaeoecological and palaeoneurological analyses to disentangle cervid evolutionary history in relation to climate changes: the case study of the Early Pleistocene deer from Pirro Nord (Italian Peninsula)	77
<i>by</i> Strani F. , Di Folco F., Iurino D.A., Cherin M., Pushkina D., Rook L., Sardella R., Azanza B. & DeMiguel D.	
Collezioni storiche: problematiche e strategie per la valorizzazione e comunicazione nel caso della Collezione Georg Gasser (1857-1931)	78
<i>by</i> Tomelleri I. , Wagensommer A. & Kustatscher E.	
Reconstruction of depositional environments in the Kungurian Megacaldera of the Athesian volcanic group: a multi-proxy approach	79
<i>by</i> Vallè F. , Nowak H., Kustatscher E., Roghi G., Morelli C., Krainer K., Preto N. & Hartkopf-Fröder C.	
Silicified shells as archives of geochemical proxies: the hidden potential of a diagenetic process	80
<i>by</i> Viaretti M. , Jurikova H. & Angiolini L.	
<hr/> POSTERS	<hr/> 81
Multidisciplinary analysis of the sedimentary succession at San Giuliano Lake (Matera, Southern Italy): sedimentological, biostratigraphic and palaeoecological reconstruction	82
<i>by</i> Amore F.O. , Argenio C., Faranda C., Ferraro L., Gliozzi E., Magri D., Michelangeli F., Relvini A., Russo B., Siciliano J., Vallefucio M., Meo A. & Senatore M.R.	
Theropod tracks from the Lama Badessa ichnosite (middle-upper Cenomanian, Apulia, Southern Italy)	83
<i>by</i> Antonelli M. , Petti F.M., De Sario F., Sacco E., Petruzzelli M., Sabato L., Spalluto L. & Tropeano M.	

Disparity <i>vs</i> diversity within the <i>Hemisyntrachelus</i> lineage (Cetacea, Delphinidae): a review of the Italian Pliocene record	84
<i>by</i> Bianucci G. , Geisler J.H., Collareta A., Sfravara L., Merella M., Carnevale G., Damarco P. & Ferretti M.P.	
Impact of plastic pollution on benthic foraminifera	85
<i>by</i> Birarda G., Buosi C. , Caridi F., Casu M.A., De Giudici G., Di Bella L., Medas D., Meneghini C., Pierdomenico M., Sabbatini A., Surowka A. & Vaccari L.	
Eccentricity signal in the time-series of nannofossil species at mid-latitude across the mid-Pleistocene transition (ODP site 1209, northwestern Pacific Ocean)	86
<i>by</i> Bordiga M. , Lupi C., Sacchi R., Ferretti P., Crowhurst S.J. & Cobianchi M.	
Paleoenvironmental considerations on the Val Seriana Valley (north-western Italy) during the Upper Pleistocene. The small-mammal fossils from Bùs di Tri Fradèi Cave (Oltre il Colle, BG) as palaeoclimatic proxy data	87
<i>by</i> Carnevali V. & Bona F.	
Brachiopods and conodonts from the upper Mississippian Tonka Formation of Carlin Canyon, Nevada	88
<i>by</i> Carniti A.P. , Anderson C.M. & Angiolini L.	
Odontometric characteristics of the European Miocene primates	89
<i>by</i> Cieszynska W.K.	
Evidence of not-genetically controlled biomineralizations in coralligenous build-ups (Marzamemi, Sicily, Italy)	90
<i>by</i> Cipriani M., Apollaro C., Basso D., Bazzicalupo P., Bertolino M., Bracchi V.A., Bruno F., Costa G., Dominici R., Gallo A., Muzzupappa M., Rosso A., Sanfilippo R., Sciuto F., Vespasiano G. & Guido A.	
Mesozoic and Cenozoic carbonate platform bioevents from the CARG Geological Sheet n. 377 “Trasacco”	91
<i>by</i> Consorti L., Fabbi S. , Cipriani A. & Pampaloni M.L.	
Agents of climate change: a paleontological point of view	92
<i>by</i> D’Amico F. , Calidonna C.R., Apollaro C., Vespasiano G. & Guido A.	
I resti di coccodrilli tomistomini della Pietra Leccese (Miocene, Italia meridionale)	93
<i>by</i> Delfino M. , Amoruso N., Macaluso L. & Rook L.	
The Cretaceous flora of Salento: preliminary data on the assemblage from Surbo (Lecce, Italy)	94
<i>by</i> De Pirro D. , Bartiromo A., Cherin M., Lionello P. & Spina A.	
Live and dead bryozoans in the coralligenous build-ups of Marzamemi (Ionian Sea)	95
<i>by</i> Donato G. , Sanfilippo R., D’Alpa F., Sciuto F., Bracchi V.A., Basso D. & Rosso A.	

- New insights on Middle Triassic invertebrate ichnoassociation from the Monti Pisani megaichnosite (northern Apennines) 96
by **Granata V.** & Collareta A.
- Microfacies and biosedimentary processes of Late Pleistocene (MIS 5.1) deposits (Capo Colonna, Southern Italy) 97
by Guerrieri S., **Santagati P.**, Borrelli M. & Perri E.
- A flat-snouted sperm whale from the Lower Miocene of the southeastern Pacific (east Pisco Basin, Peru) supports affinities with the southwestern Atlantic cetacean fauna 98
by Lambert O., **Collareta A.**, Benites-Palomino A., Merella M., de Muizon C., Bennion R., Urbina M. & Bianucci G.
- New fossil remains and histological study of *Diplocynodon ratelii* (Crocodylia: Diplocynodontidae) from the Middle Miocene site of Els Casots (Catalonia) 99
by Logrosán Soriano P., Luján A.H., Nacarino-Meneses C., **Villa A.**, Abella J., Madurell-Malapeira J. & Casanovas-Vilar I.
- Analisi paleoecologica dell'associazione a *Venus-Ostrea* del Torrente Arda (Pleistocene Inferiore) 100
by **Lombardi M.** & Crippa G.
- Revising the early European record of the dirk-toothed cat *Megantereon* 101
by **Madurell-Malapeira J.**, Bartolini-Lucenti S., Costeur L. & Rook L.
- Paleoclimatic and paleoceanographic changes and their impact on planktic foraminifera in the Tyrrhenian Sea during the last 32 ka 102
by **Martinelli P.**, Gennari R., Lirer F. & Cascella A.
- Technological innovation for the remote 3D study of marine bioconstructions: a project proposal 103
by **Maruca G.**, Bruno F., Lagudi A., Barbieri L., Gallo A., Cipriani M. & Guido A.
- The Pleistocene malacological collection of Catallarga (Sicily) in the Museum of Paleontology (University of Catania) 104
by **Minniti G.**, Reitano A., Di Geronimo I., Rosso A. & Sanfilippo R.
- Digital investigation of lamniform shark vertebrae from the Scaglia Cinerea – Bisciaro boundary (Miocene, Umbria-Marche basin) 105
by Moscarella A., **Fabbi S.**, Bindellini G., Carnevale G., Citton P., Consorti L., D'Ambrogi C., Garzarella A., Muraro C., Pampaloni M.L., Prinzi E.P., Radeff G., Romagnoli G., Romano M., Spanò F. & Cipriani A.
- Preliminary study of two cave bear cubs from the Late Pleistocene vertebrate assemblage of the “Tecchia” of Equi cave (Equi Terme, Massa-Carrara province, Italy) 106
by **Mulè F.**, Collareta A. & Farina S.

A leathery meal: megatoothed shark bite mark on a <i>Psephophorus</i> carapace from the Pietra Leccese formation (Miocene, Southern Italy) and its palaeoecological implications	107
<i>by</i> Peri E. , Collareta A., Granata V. & Bianucci G.	
The Wolferode Quarry: an amazing middle to late Permian tracksite in Central Germany	108
<i>by</i> Pieri A. , Falk D., Buchwitz M., Schneider J.W. & Ehling B.C.	
Moleto: a new latest middle-earliest Late Pleistocene vertebrate site in Northern Italy	109
<i>by</i> Piñero P., López-García J.M., Carnevale G., Furió M., Giuntelli P., Luzi E., Macaluso L., Marramà G., Pavia G., Pavia M., Pezzetti C., Rocca M., Villa A. & Delfino M.	
Nuove evidenze di depositi plio-pleistocenici a conchiglie e vegetali fossili nell'alveo del Torrente Cervo: rassegna preliminare	110
<i>by</i> Pizzitola V.O. & Martinetto E.	
Reimagining <i>Velociraptor</i> 100 years after its discovery	111
<i>by</i> Romano M. , Bindellini G., Moscarella A., Manucci F. & O'Connor J.K.	
The Achille Tellini historical collection (Museo Universitario di Scienze della Terra, Sapienza Università di Roma)	112
<i>by</i> Sacco E., Pignatti J.S. & Sardella R.	
Biodiversity and distribution pattern of serpulids from Mediterranean Holocene coralligenous build-ups	113
<i>by</i> Sanfilippo R. , Donato G., Basso D., Bracchi V.A. & Rosso A.	
MIS 5.5 SST estimation from a macrofossil assemblage: a multi-proxy reconstruction	114
<i>by</i> Santagati P. , Perri E., Borrelli M. & Guerrieri S.	
Collezioni museali e valorizzazione del patrimonio paleontologico. Mappare per costruire reti: il caso studio della Val d'Alpone	115
<i>by</i> Tomelleri I. & Zorzin R.	
A dendrolite/thrombolite carbonate build-up from the Messinian terminal carbonate complex of the Salento Peninsula (Southern Italy)	116
<i>by</i> Vescogni A. & Guido A.	
Some considerations about MIS3 marmots (<i>Marmota marmota</i>) of north-western Italy with particular regards to those from Caverna Generosa (Centrovale Intelvi, Como)	117
<i>by</i> Vincenzi M., Bona F. & Nappi A.	
Re-animation of a fossil: bringing back to life the specimens from MUSTE (Museo di Scienze della Terra) of University of Bari with digital technologies	118
<i>by</i> Zazzera A. , Marsico A., La Perna R., Marino M., Venisti N., De Prezzo G., Bruno Stamerra F., Spisso N., Spada I. & Girone A.	
A new proboscidean tracksite in the Pleistocene of south-western Sardinia (Italy)	119
<i>by</i> Zoboli D. , Masala A. & Pillola G.L.
